

Bill Ayres' My Holiday Experience

By Bill Ayres Class 4D

I went on a very special holiday this summer with my family. We went to Rome and explored some of the special sights of the ancient world.

We stayed near the Roman Baths and visited the famous Coliseum and the Roman Gardens. I discovered that the Coliseum is still being used for athletics and the original seats are still there for spectators coming to watch lots of events taking place there.

We also went to see the Roman Gardens where we were told that the streams there are connected to the Roman Baths. There were a lot of people there from all over the world visiting the Coliseum and the Gardens.

My visit to Rome will help me with my work on the Romans which I will be studying in Year 4 this year.

I also visited Scotland where I went to an aquarium. I saw a fish egg hatching and a Clown Fish being born. I bought a crystal at the aquarium which had been found underwater, near where the baby fish had been hatched.
